

AS A REMINDER

All CARDLOCK Customers,

One thing we like to remind our CARDLOCK customers of is card security.

We require that you memorize your PIN NUMBER, and that you DO NOT write your pin number on the card jacket or on paper with your card.

Also, if the card is lost or stolen, call us immediately so that the card can be locked out of the CFN Network. There is no charge to have a card locked out.

If these procedures are not followed, the customer will be liable for ANY AND ALL transactions that occur on that CARDLOCK card.

Please sign if you are in agreement to the above and return with your credit application.

Thank you for your cooperation

Don Jeffries
